Low-rank and sparse methods for high-dimensional approximation and model order reduction

———

Outline and References

Outline

I. High-dimensional approximation, sparse and low-rank tensors

- **1** High-dimensional approximation
- **2** Sparse approximation
- **3** Tensors, sparse tensors
- **4** Low-rank tensors

II. Low-rank methods for parameter-dependent equations and high-dimensional pdes

- **5** Tensor structure of high dimensional equations
- **6** Low-rank methods for tensor-structured equations
- **7** Higher order singular value decompositions and related tensor truncation schemes

III. Low-rank approximation of tensors: advanced topics

- **8** Sampling methods for low-rank tensor approximation - a subspace point of view
- **9** Geometry of tensor manifolds and applications
- **10** Quantized tensors
